

I would like to put forward an amendment to the motion as follows

The rural areas of Carmarthenshire need special and direct attention, but also there are common issues throughout our county such as poverty and the lack of adequate public transport that also need our attention. We ask that this Council establish a working group consisting of members from all the county parties to look at issues that face everyone both in the rural and urban areas

The working group (following the pattern set by the language Language Working Group) would collect information, research and invite and receive evidence in relation to rural and urban areas in Carmarthenshire, before presenting, in due course strategies, policies and an action plan before full council.

This ammendment is seconded by Cllr. Madge who is copied in, thank you

Kind regards

Jeff Edmunds
