The 'off target' deliverables have been discussed at their appropriate Scrutiny.

## REPORT B

## Outcome Agreement 2014/15

An 'Annual Report' based our self-evaluation classing all five outcomes as 'fully successful' was sent to WG on $13^{\text {th }}$ May 2015. A response received on the $15^{\text {th }}$ July confirmed that they agreed with our proposed amendments for the 2015/16 targets and they will be in touch in due course to arrange a meeting to negotiate the 2014/15 payment. Also the Authority has not been subject to statutory support arrangements or intervention from the Welsh Government under section 28/29 of the Local Government (Wales) Measure 2009.

## Outcome Agreement 2015/16

We are aware of potential changes to the OAG which could mean that the grant is rolled into the RSG funding but await confirmation from the Minister.

There are a total of $\mathbf{5 1}$ deliverables included in Year 3 of the successor Outcome Agreement for 2015/16

EOY results:-

- 72\% (37) deliverables are on target
- 10\% (5) deliverables are off target
- $18 \%$ (9) deliverables is still outstanding

Here is a breakdown per Scrutiny.

| Outcome Agreement Grant per Scrutiny | Total | On <br> target | Off target | Annual | \% On <br> target |

Calculation includes Permanent and temporary staff only. Data includes all school based staff \& teachers.
Days lost are through sickness due to illness/disability, long-term sickness and industrial injury. Not included medical/dental appointments or Maternity / Paternity leave etc. Numerator - number of FTE sick days lost / Denominator -Average FTE
Headcount

- It is encouraging to see the result at half year is 4.5 FTE days, just under the set half year target of 4.6 days, a small increase on this time last year, 4.3 FTE days
- The Communities Department absence levels have dropped significantly over the last two years, however this period is showing a slight increase of 5.9 FTE days, compared to 5.7 FTE days for this period last year. However, this department has had an increase in staff with the amalgamation of Leisure into the department. Workshops are planned in December 2015 for the Mental Health/Learning Disabilities managers/supervisors, with the focus on attendance management and trend analysis, so that additional support can be provided where it is needed.
- Another area where sickness has increasing slightly is in Primary schools, 3.8 FTE days this period compared to 3.2 last year.

The new sickness absence policy has been circulated to schools for them to adopt-and overall sickness absence management practices have been outlined to Head Teachers in the school workshops held in July 2015. Raising awareness of sickness absence management can, in some cases, cause an upward trend in sickness, because of the increased awareness of accurate reporting. Significant work continues to assist the management of sickness absence levels on an individual basis and training using the same methodology as the corporate sickness absence training, is planned for the spring term for all schools. It is hoped that this will give the emphasis required for more effective and consistent management of absence in schools in the future.

Some additional initiatives and support which are underway include:-

- Further workshop planned with schools on managing attendance. This will include managing physical and mental health and the application of the sickness policy.
- Mutual Fund -being developed which will replace the insurance covering school's staff absence. It is hoped that there will be a saving for all schools who sign up and part of the specification will be around ensuring all cases are being managed appropriately.
- Timely engagement with schools on sickness cases.
- Continued roll out of resource link self service for schools
- Service specific bespoke attendance management workshops.

The Chartered Institute of Personnel and Development (CIPD Absence survey 2015) reported that only a quarter of organisations achieved their 2014 end of year target. Carmarthenshire County Council's target for $14 / 15$ was 10.0 days and the end of year result was 9.6 days which was a reduction of 1 FTE. The survey also showed that stress related absence had increased in two fifths of organisations.-In CCC we found that there was over $20 \%$ reduction in sickness absence attributed to this reason last year, in part due to the additional initiatives and support which are in place.

However, it is disappointing to note that for this period last year, sick days attributed to stress, mental health and fatigue were 6,692 days compared to 7,818 at half year this year and the most significant areas are Education and Children's Services and the Communities Department. However, again when looking at the Communities Department there has been an increase in staff due to the Leisure Department amalgamation. There are additional workshops planned for the Managers and Head Teachers looking at areas such as:

- The Sickness policy
- Case studies
- Getting the most out of Occupational Health referrals and
- Reiterating the importance of using all the tools and support available.

## Public sector comparisons

The Chartered Institute of Personnel and Development (CIPD Absence survey 2015) reports that there is a variation across sectors and that the increase in sickness absence has increased most in the public sector, where it is now $50 \%$ higher than in the private sector. Across all sectors the FTE days lost is 6.9 days an increase on the previous year 6.6 FTE days.

When considering the tables below, it should be noted that that the figures cannot be used as a direct comparison to departments within the Council. However, they do give some indication of where we sit alongside other organisations. It should also be noted that the take up rate of these surveys appears to be very low in respect of local government at only 4\%. The figures however are encouraging against our 2014/15 end of year performance of 9.6 FTE days.

| Public Sector | FTE <br> days |
| :--- | :--- |
| Local Government | 7.9 |
| Central Government | 9.0 |
| Health | 10.4 |
| Education | 10.1 |

| Private Sector | FTE <br> days | Similar Sector within <br> Carmarthenshire County Council | FTE <br> days |

| Financial insurance and real estate | 7.6 | Finance | 7.3 |
| Transport distribution and storage | 7.9 | Transport and Engineering | 8.0 |

For 2014/15 we are in the middle to top quartile when compared to other authorise in Wales.
