EXECUTIVE SUMMARY

EXECUTIVE BOARD
30TH NOVEMBER, 2015

CSSIW ANNUAL REVIEW AND EVALUATION OF PERFORMANCE FOR 2014/15

The following is a summary of the overall evaluation:

“Carmarthenshire County Council has continued to deliver social care services to children and adults effectively throughout the year, with a number of performance indicators showing improvements. The council continues to build upon its vision of integrated health and social care services for older people, with evidence showing that people are being effectively supported to remain in their community. In children’s services there has been a strengthening of the development of preventative services, with a number of key services implementing a more refined multi-agency approach to working.

The council’s annual improvement plan 2015-16 sets out the vision of the council that social services, “enables people to live healthy and fulfilled lives by working together to build strong, bilingual and sustainable communities.” The council recognises the challenges ahead in meeting the demands for services within the financial constraints. It has set out how it will meet its budget reduction of £45 million over the next three years; with an integrated approach to the delivery of services a key priority. The council has developed a five year Integrated Community Strategy which sets this vision, with children and adults services business plans aligned to the councils overall strategy.

During the year there have been changes in senior officers with the previous statutory director retiring and the two heads of adult social care also retiring. These senior officers have had a significant impact on service developments in the council and have left a positive legacy for their successors. A new statutory director commenced in November, and it’s evident that they have continued to ensure effective delivery of the key strategic priorities. The director’s annual report provides an accurate account of the council’s performance and sets out its strategic priorities for the next twelve months. A key aim is to further improve performance with new measures to ensure performance is measured effectively and that data is used to improve performance. The officers of the council in adult and children services continue to provide effective leadership. They are clear on their priorities and the performance of the council continues to be amongst the best in Wales.”

Response to last year’s areas of improvement

The council has made good progress in the areas identified for improvement in CSSIW’s annual review and evaluation of performance report 2013-14.
