Action Plan

RECOMMENDATIONS	PROGRESS	TARGET DATE	RESPONSIBLE
1. To provide training for Members on the need to consider 'expediency' when deciding on any enforcement action including when formal action should be taken under legislation relating to another service area as opposed to Planning legislation	The implications of the new Planning Bill have been the main priority during the last year in terms of briefings for Members. It had been intended to arrange a training seminar this last autumn with Legal to instruct a barrister to present the training. A corporate pot of £1,500 was made available to fund the training. The key focus was aimed to be "material consideration" and "expediency". Given the raft of secondary legislation and procedures on development management released over the last month or so it is the intention to combine this training now with updates on the newly introduced secondary legislation relating to Development Management and Enforcement.	December 2015 – Revised given the recent introduction of the WG secondary legislation. Date to be confirmed	Relevant Heads of Service
2. To state the reasons why formal enforcement action is taken and make the reasons for decisions more explicit in reports refusing retrospective planning applications or where informal negotiations fail.	Regular meeting are held with Planning Enforcement Officers (PEOs) and decisions discussed. Decision reports are signed off by Senior Planning Enforcement Officers.	October 2014/ completed
