Y Weledigaeth

Dylai'r weledigaeth fod yn un o “drefnu gofal o amgylch **yr unigolyn a theulu'r unigolyn**, mor agos â phosibl at y cartref, ac y dylai fod yn ataliol, yn hygyrch ac o ansawdd uchel. Dylai gael ei alluogi'n rhannol gan dechnoleg ddigidol a dylai ddarparu'r hyn sy'n bwysig iawn i ddefnyddwyr a'r cyhoedd. Dylai gofal a chymorth fod yn **ddi-dor**, heb unrhyw rwystrau artiffisial rhwng iechyd corfforol ac iechyd meddwl, gofal sylfaenol a gofal eilaidd, neu iechyd a gofal cymdeithasol” (Adolygiad Seneddol 2018)

The Vision

The vision should be “of care organised around the **individual and their family** as close as home as possible, be preventative with easy access and of high quality, in part enabled via digital technology, delivering what users and the wider public say really matters to them. Care and support should be **seamless**, without artificial barriers between physical and mental health, primary and secondary care, or health and social care” (Parliamentary Review 2018)
