Subject: RE: McDonalds, St Clears - Licensing Hearing 15/02/2022 - Additional documents.

Thank you for your email.

As MacDonalds have now provided you with their litter management plan, I thought it pertinent to show you a recent post from MacDonalds St Clears on Facebook (please see attached).

They are now seeking the local community's help in litter picking in a wider yet, such a community lead scheme is not covered in their litter management plan. I suspect such regular "community litter picks" with members of the public would not be covered by the restaurants own H&S or liability insurance policies.

Furthermore, on reviewing the anti social behaviour guide, there does seem to be a lack of managing areas outside of the restaurant ie restaurant car parks where, noise pollution and anti social behaviour is likely to have a bigger impact on the local residents.

I trust some consideration will be given to the above points.

Regards,

Simon Evans.

**McDonalds St Clears**

5 d ·

It's been a week already since we opened our doors, thank you all for your support and welcome to St Clears

We have had some reports of litter in the local community which we are keen to address, we do carry out regular litter picks throughout the day around the vicinity of the restaurant and have a number of bins around the car park.

Unfortunately there will always be a small number of people who choose to discard their litter away from the restaurant we can't always get to these areas as they are on the dual carriageway or too far to allow a member of staff for health and safety reasons to walk on a regular basis

We are keen to hold regular litter picks in the local community covering a wider area and would welcome any local groups, schools or other organisations who would like to get involved, we can start at the restaurant then spread throughout the wider area we could then meet back at the store for a free coffee and to dispose of any litter that has been picked.

If anyone is interested in getting involved please contact the restaurant or pop in and speak to us

If there are also any troublesome areas that we can look to expand our daily litter walks then again please get in
