Policy

Draft Responsible Investment Policy - The Fund recognises that Environmental, Social and Governance ('ESG') issues can represent a material financial risk to its stakeholders and can influence the Fund's long-term returns and reputation. Given this, the Committee aims to be aware of, and monitor, financially material ESG factors.

Finance

Budget Monitoring - Overall, the Fund needs to maintain a positive cash flow balance to meet its obligations. The cash flow projection was positive by £5.6m as at 31 December 2021.

Budget - The report provides an initial view of the Budget for 2022-2023. Overall, the Fund needs to maintain a neutral budget so that there is sufficient income to meet its obligations. An estimated £107.8m income budget is a significant figure to achieve this.

Cash Reconciliation - A sufficient cash balance is required to be held by Carmarthenshire to ensure the Fund can meet its immediate cash flow requirements.

The Wales Pension Partnership Business Plan - outlines the priorities for the WPP during 2022-2025, ensuring that resources are allocated to meet our objectives.

Risk Management

Risk Register - The register is used to identify any risks relating to the functions of the Dyfed Pension Fund and highlights what measures are in place to mitigate these risks. Failure to manage the risks correctly could result in the Fund not meeting its objectives.

Following the recent review risk **CSV400035** has been amended and a new risk **CSV400036** – Global Financial Market Risk has been included.

PENSIONS ADMINISTRATION REPORT – 29th March 2022

This report provides a progress update on a number of projects being simultaneously undertaken, along with providing information on relevant issues in the administration of scheme benefits.

1. Regulatory update –

- a. McCloud/Sargeant update – You will recall from the previous report that the remedy would require the recalculation all pensions (including dependants pensions), death grants, and deferred benefits calculated since 1st April 2014 for those that were active on 31st March 2012. This will require all employers to provide the hours each part time scheme member, including any changes, they have worked between 1st April 2014 to 31st March 2022. Meetings have been held with all employers to clarify the categories and members for which uploads are required. All Employers have also been provided with data extracts to undertake data comparisons and identify any issues. Our software supplier is continuing to test the ‘McCloud’ data upload facility. When this has been completed, a detailed project plan can be provided as it is currently anticipated that a significant number of cases will require manual intervention rather than automated update of hours. The Public Service Pensions Scheme Bill is currently going through House of Commons and House of Lords. When it receives Royal Assent a further update will be provided. Regulatory clarity is also required to deal with data discrepancies and cases where the employer no longer exists or is not able to provide data.
- b. Pensions Dashboards – The Pensions Schemes Act requires schemes to provide information to a pensions dashboard in order that individuals can access pensions information in one place online. The Government hopes this will support individuals to plan for their retirement whilst giving better understanding of their pensions. The LGPS must connect with dashboards between October 2023 and April 2024. We are working with our software provider to meet this legislative requirement.

2. Breaches Register

Regulation 18(5) of the LGPS Regulations 2013 prescribes that there is a time limit for payment of a refund of pension contributions:

“An administering authority shall refund contributions to a person entitled under paragraph (1) when the person requests payment, or on the expiry of a period of five years beginning with the date the person’s active membership ceased if no

request is made before then or, if the person attains age 75 before then, on the day before attaining age 75."

The National Technical Group recommend to SAB, to change the regulations concerning the payment of a refund to reflect the position prior to 1 April 2014 i.e. to remove the prescription that requires an administering authority to pay a refund on the expiry of a period of five years beginning with the date the person's active membership ceased if no request is made before then.

In making this recommendation the group acknowledged that interest would be added up to the date of payment, as opposed to on the expiry of 5 years and if a fully completed mandate is not returned by the member, no further action would take place i.e. the group agreed not to waste time or money on using Tracing services in respect of members who have been contacted repeatedly and do not reply. The SAB have made recommendations to MHCLG.

The refunds scheduled to be automatically paid in December 2021, January 2022, February 2022 and March 2022 have been included on the breaches register as the scheme members have not replied in order for the refund to be paid.

3. I-connect

In order to improve the timeliness of data flow from scheme employers to the administration section, a monthly update system called 'i-connect' has been implemented.

Further development work has continued with employers to 'on board' them in order that data can be transferred electronically. The table below shows the employers who are active on i-connect.

4. GMP Reconciliation

When a scheme member attains State Pension Age, they will be advised of the amount of Guaranteed Minimum Pension (GMP) which is included in their pension. The GMP relates to the part of the pension for the period between April 1978 and April 1997 for which they were 'contracted-out'. For this period, the Scheme has to guarantee that their pension will be at least the same as it would have been, had they not been 'contracted-out'. Contracting out ceased in April 2016. HMRC have now stated that they will not be sending a statement to all individuals affected specifying who is responsible for paying their Guaranteed Minimum Pension (GMP). The pensions section will continue to reconcile the GMP values it holds for members with those calculated by HMRC. It ensures that all individuals recorded by HMRC against the fund are correct. The pensions section has reconciled 99.76% of the records held. Further information has also

been issued to HMRC in order that they can amend their records, unfortunately, a response remains outstanding. Reconciliation work has also been undertaken in respect of active scheme members and 99.40% have been reconciled. Unfortunately HMRC have not responded to all the outstanding queries and therefore the reconciled data remains the same as the previous report.

5. Workflow

The tables overleaf detail the workflow statistics for the key tasks undertaken in the section for the period 1st October 2021 to 31st December 2021 in respect of the LGPS only. Please note that in circumstances where multiple iterations for the same calculation date have been undertaken, this is recorded as a single estimate. The workflow statistics are recorded on a quarterly basis.

Dyfed Pension Fund – Responsible Investment Update – March 2022

This summary has been prepared as part of the Dyfed Pension Fund's (the "Fund") commitment to communicate more comprehensively about its activities and progress in respect of Responsible Investment (RI). Between September and December 2021, the Fund has:

1. Governance

- Initiated discussions with Wales Pension Partnership (WPP), member funds and with external parties to commission a specialist to provide independent measurement of the Fund's progress in respect of decarbonisation goals
- Initiated a review of the Fund's RI policy, as distinct from the WPP policy
- Started work on Task Force on Climate-related Financial Disclosures (TCFD) reporting at WPP, supported by Hymans. Exploring possibility of Hymans resource to support member Funds' reporting as well
- WPP has become a signatory to the UK Stewardship Code
- WPP is an affiliate member of Pensions For Purpose

2. Stewardship (Engagement, Communication)

- Continued active engagement on a variety of issues, via our WPP stewardship partner, Robeco <https://www.robeco.com/en/insights/2022/01/acceleration-to-paris-leads-q4-active-ownership-report.html>
- Met with and continued constructive engagement with Divest Dyfed and Friends of the Earth groups
- Initiated a quarterly RI update to the Committee

3. Progress to date

a. General

- Announced the divestment of Russian stocks, when practically possible, held by the Fund and WPP funds
- Worked with WPP to set up a Sustainable Equity sub-fund. This will be launched during 2022
The Fund continues to review its equity allocations in light of new sustainable investment opportunities (such as this sub-fund) and the rise in valuation of its investments with a higher fossil fuel exposure

b. Climate / decarbonisation

Since setting its baseline in September 2020, the Fund reduced the weighted average carbon intensity of its investments by 13% by March 2021, and by an estimated further 7% by March 2022. This exceeds the Fund's Paris-aligned aspiration of a reduction of 7% per annum.

- Established a methodology for measuring decarbonisation quantitatively (using portfolio weighted average carbon intensity). Given the long term nature of the decarbonisation goals, and current issues with data quality/coverage and short term "noise", as well as cost/resourcing, it is proposed to measure this at least annually at the Fund's year end (March), and more often if justified by significant changes in portfolio asset allocation or market movements.
- Realigned its Strategic Asset Allocation, reducing higher carbon regional equity holdings by some £60m, and reinvesting in Real Estate (£60m) and BlackRock's SAIF fund (£30m, see below). As previously reported, this is estimated to have reduced the Fund's equity CO2 intensity by some 3%

- Helped drive the following changes within DPF's managed portfolios:
 - The Baillie Gifford "sleeve", representing 43% of the WPP Global Growth Fund and 13.4% of DPF's assets at 31 December 2021, switched to the "Paris-Aligned" version of its strategy. This strategy uses more forward-looking measures of carbon emissions (e.g. incorporating consideration of "scope 3" emissions where available) and is committed to ongoing reductions of at least 7% per annum.
 - BlackRock's SAIF fund invested an additional c. 10% of its assets in the Renewable Energy (UK) Fund, taking its overall investment up to some 20% of the Fund (i.e. £25m of DPF's total investment). This represents some 30,000 tons per annum of Greenhouse gas emissions avoided for the whole SAIF Fund, so some 3000 tons for the Fund's investment. In addition, the Renewable Energy (UK) Fund projects contribute to the local communities by investing in community benefit funds. These contributions are expected to total £10.4m over the life of the fund and to support village hall renovations, wildlife preservation and mental health counselling
 - Discussions are taking place with BlackRock re: lower carbon / zero fossil fuel variant of their ACS Low Carbon Fund which the Fund is currently invested in
 - Discussions are also taking place with WPP on local investments within Wales

Introduction

Carmarthenshire County Council is the Administering Authority for the Dyfed Pension Fund (the Fund). The Fund administers the Local Government Pension Scheme (LGPS) on behalf of around 51,500 members and 69 employers.

The Pension Committee is the decision-making body for the Fund, advised by Fund officers in their role as scheme administrators and the Independent Investment Adviser.

The day-to-day management of the Fund's investments are delegated to Investment Managers. Regular meetings are held with these Managers, where performance and governance issues including responsible investment topics are discussed.

Responsible Investment

The Fund is a long-term investor aiming to deliver a sustainable pension fund for all stakeholders and has a fiduciary duty to act in the best, long-term, interests of the Fund's employers and scheme members.

Responsible Investment is a fundamental part of the Fund's overarching investment strategy as set out in the Investment Strategy Statement. That is, to maximise returns subject to an acceptable level of risk whilst increasing certainty of cost for employers and minimising the long-term cost of the scheme. The Fund believes that consideration of Environmental, Social and Corporate Governance ("ESG") factors are fundamental to this, particularly where they are likely to impact on the overarching investment objective.

The Fund's approach aims to ensure that consideration of ESG factors is embedded in the investment process, utilising the various tools available to manage ESG risks and to harness opportunities presented by ESG factors.

The Fund's core principles of responsible investment are:

1. To apply long-term thinking to deliver long-term sustainable returns. from well-governed assets.
2. To use an evidence-based long term investment appraisal to inform decision-making in the implementation of Responsible Investment principles.
3. To consider the costs of Responsible Investment decisions consistent with our fiduciary duties.

To date, the Fund's approach to Responsible Investment has largely been to delegate this to its underlying investment managers and WPP, in particular, as part of their overall ESG duties.

Investment Beliefs

The primary objective of the Fund is to provide pension and lump sum benefits for members on their retirement and/or benefits on death before or after retirement for their dependants, in accordance with LGPS Regulations.

The investment objective is therefore to maximise returns subject to an acceptable level of risk (including climate and other ESG risks) whilst increasing certainty of cost for employers and minimising the long term cost of the scheme. Having a thorough understanding of the risks facing the Fund is crucial and these are covered later in this Policy.

The Fund's investment beliefs which help to inform the investment strategy are as follows:

- Funding, investment strategy and contribution rates are linked
- The strategic asset allocation is the key factor in determining the risk and return profile of the Fund's investments
- Effective governance structures, which promote decisiveness, efficiency and accountability, can add value to the Fund.
- Investing over the long term provides opportunities to improve returns and allows the Fund to take some risks (e.g. volatility, illiquidity) which might not otherwise be acceptable.
- Diversification across and within asset classes can help to mitigate against adverse market conditions and assist the Fund to produce a smoother return profile due to returns coming from a range of different sources.
- Managing risk is a multi-dimensional and complex task but the overriding principle is to take the appropriate level of risk, to achieve the Fund's objectives
- ESG factors are important drivers of investment returns and risks over the long term. Climate change (UN SDG 13), in particular, has the potential materially to impact the returns and risk profile of various assets. The committee believes that both adjusting its investment allocations and engagement with investee companies can help to achieve its responsible investment goals.
- Stewardship is an important responsibility and one which can be delegated. Engaging with investee companies is an important part of this and is likely to be more effective than divestment in improving desired outcomes.
- Value for money from investments is important, not just absolute costs. Asset pooling can help reduce costs whilst providing more choice of investments and will therefore be additive to Fund returns
- Active management can add value to returns over the long term.

Environmental, Social and Governance Risks

The Fund's investment strategy includes its own approach on Responsible Investment. Non-compliance would expose the Fund to financial and reputational risk. The Fund believes that effective management of financially material Responsible Investment risks should support the Fund's requirement to protect returns over the long term. The Fund will seek to further integrate Responsible Investment factors into the investment process across all relevant asset classes.

Role of the Pension Board

The Local Pension Board ('the Board') is established in accordance with the Public Service Pensions Act 2013.

The role and purpose of the Board is to:

- Secure compliance with the regulations, and other legislation relating to the governance and administration of the Scheme as prescribed by the Pensions Regulator and Department for Levelling Up, Housing and Communities (DLUHC)
- Ensure effective and efficient governance and administration of the Scheme.

The Board provides oversight of compliance and governance matters, including Responsible Investment, and can make recommendations to the Pension Committee accordingly. The members of the Board do not have the right to vote on Fund decisions but can input positively and support improvements in overall service delivery.

Stock Lending

The Committee believes that stock lending can be an effective way to generate additional revenue in accordance with its investment strategy. However, the Committee also recognises that stock lending should not be used to the detriment of being a responsible investor. It is recognised that stock lending may inhibit the full application of a voting policy as votes may not be cast on stock on loan and so there is a balance to be achieved as a result.

The Committee has agreed to stock lending activity being undertaken on the WPP's actively managed pooled fund investments. However, within the WPP's stock lending policy is an explicit requirement not to lend 100% of holdings in any single stock so that the WPP, in collaboration with its Constituent Authorities and advisors, can express views and take a policy stance on any topic it deems worthy through its right to vote.

The Committee, via the WPP, will continue to monitor the impact of this policy stance and revise its stance if required. The Fund, via the WPP, also retains the right to recall stock, if required, as part of its stock lending arrangements.

Engagement

The Committee believes that engagement with investee companies can help to achieve its responsible investment goals. Additionally, the Committee encourages the Fund's asset managers to engage with the companies they invest in, where they believe that value can be added, or risk can be reduced.

The Wales Pension Partnership is a signatory to the UK Stewardship Code 2020 and is an affiliate member of Pensions for Purpose. It has appointed Robeco as its voting and engagement manager, to ensure a proactive approach to engagement with WPP's investee companies, as well as effective use of its voting power as a shareholder.

In addition, the Fund believes in collective engagement and is a member of the LAPFF, through which it exercises a voice across a range of ESG topics.

The Fund also engages with groups such as Divest Dyfed and Friends of the Earth Wales on a regular basis where there is an exchange of views and informed discussions take place.

In addition, the Fund engages with its members via the annual newsletter, Annual Consultative Meeting and a dedicated website.

Climate Change

The Fund recognises the importance in addressing the financial risks associated with climate change through its Investment Strategy Statement, and believes that:

- Climate change presents a systemic risk to the overall stability of every economy and country, with the potential to impact on the members, employers, and all of the holdings in the Fund's investment portfolio.
- Considering the impacts of climate change is not only the legal or fiduciary duty of the Fund but is also consistent with the long-term nature of the Fund. The Fund's investments need to be sustainable to be in the best interests of all key stakeholders. To this end, the Fund is committed to transition its investments towards net zero GHG emissions over the medium term. The Fund will regularly report on progress, including establishing intermediate targets, one of which is reducing the carbon intensity of the Fund's equities by at least the Paris aligned target of 7% per annum.
- Engagement is the best approach to enabling the change required to address the Climate Emergency. However selective risk-based divestment is appropriate to facilitate the move to a low carbon economy.
- As well as creating risk, it also presents opportunities to make selective investments that achieve the required returns, whilst at the same time make a positive social and environmental impact, such as environmental infrastructure and clean energy and energy efficiency products and services.

The Fund also takes account of WPP's Responsible Investment and Climate Risk Policies.

Human Rights

Societal expectations of companies with regard to human rights are increasing, as are legal and regulatory obligations. There is an increasing expectation on companies to ensure that they protect human rights in line with international, legal and regulatory obligations on a global scale. The Committee recognises its role in supporting this principle and to urge improvement in company practice through its Voting & Engagement activity where this is warranted.

The Committee recognises that it has an obligation to respect human rights as outlined within the UN Guiding Principles on Business and Humans Rights (UNGP's) and to encourage good practice which protects against violation and exploitation. This extends to expecting compliance with normative standards and relevant legislation.

Stewardship activity around human rights is pursued both through the Fund's membership of LAPFF and via the engagement activity undertaken by WPP's Voting and Engagement provider, where the latter has specific focus on engagement themes tied to human rights issues over a three-year time horizon.

The Committee expects these efforts to result in greater transparency in order to drive real world improvements.

Introduction

This is the business plan for the Wales Pension Partnership ('WPP'), the business plan details the WPP's priorities and areas of focus for 2022/23, 2023/24 and 2024/25. The business plan is constantly monitored and will be formally reviewed and agreed every year. The purpose of the business plan is to:

- Explain the background and governance structure of the WPP
- Outline the priorities and objectives of the WPP over the next three years
- Outline the financial budget for the relevant Business Plan period
- Summarise the WPP's Investments & Performance Objectives

About the Wales Pension Partnership

Established in 2017, the WPP is a collaboration of the eight LGPS funds (Constituent Authorities) covering the whole of Wales and is one of eight national Local Government Pension pools. We have a long, successful history of collaboration, including examples that pre-date the Government's pooling initiative. We are proud of our unique identity as a Pool – our Constituent Authorities represent and span the entirety of Wales. Being democratically accountable means, we provide the best of strong public sector governance and transparency.

Our operating model is designed to be flexible and deliver value for money. We appointed an external fund Operator and make use of external advisers to bring best of breed expertise to support the running of the Pool, this includes Hymans Robertson who have been appointed as the WPP's Oversight Advisor. The Operator is Link Fund Solutions and they have partnered with Russell Investments to deliver effective investment management solutions with the aim of achieving strong net of fee performance for all the Constituent Authorities. We have a shared vision and agreement on the means and pace at which this vision will be achieved. The eight LGPS Funds (Constituent Authorities) of the Wales Pension Partnership are:

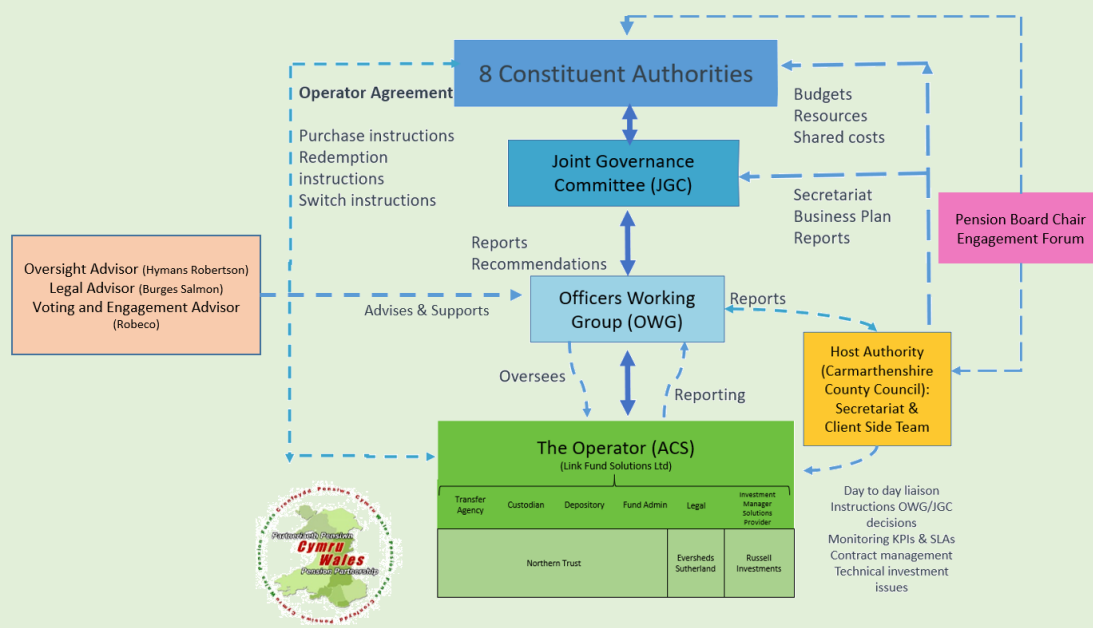

Governance

The WPP is responsible for ensuring that its business is conducted in accordance with regulation and guidance. We must also ensure that: public money is safeguarded and properly accounted for, used economically, efficiently and effectively to ensure value for money. We also strive for continuous improvement and to conform with industry best practice.

The WPP details how it deals with all aspects of Governance through its Inter Authority Agreement (IAA), which defines the standards, roles and responsibilities of the Constituent Authorities, its Members, Committees and Officers. The IAA includes a Scheme of Delegation outlining the decision-making process, taking into account the relevant legislation. In line with its belief that good governance should lead to superior outcomes for stakeholders, the WPP has put in place a robust governance structure, which has been designed to:

The diagram below shows WPP's governance structure:

The Constituent Authorities sit at the top of the WPP's governance structure. They retain control of all activity carried out by the WPP and remain responsible for approving this Business Plan, which outlines the WPP's budget and workplan, as well as its beliefs and objectives. The Constituent Authorities are heavily involved in all aspects of the WPP's governance structure, while the WPP's Joint Governance Committee and Officers Working Group are comprised respectively of elected councillor and officer representatives from the Constituent Authorities.

The WPP believes in being open and transparent as well as regularly engaging with its key stakeholders. As such the WPP ensures the meetings of the Joint Governance Committee are accessible to the public via a live webcast stream. Meeting papers are also made publicly available. Local Pension Board engagement days are also held regularly as a means of fostering stakeholder engagement. The WPP recognises the importance of all of its stakeholders to reflect this the WPP has put in place an Engagement Protocol Framework, this is carried out via the following engagement mechanisms:

Engagement mechanisms and Frequency:

- | | |
|---|----------------|
| • Strategic Relationship Review meeting | Bi-Annual |
| • JGC Engagement | Quarterly |
| • Manager Performance Meetings/ Calls | Quarterly |
| • Training Events | Quarterly |
| • OWG Engagement | Quarterly |
| • Bi-weekly meetings | Every 2 weeks |
| • Annual Shareholder Day | Annual |
| • Pension Fund Committees | Annual |
| • Manager Engagement Days | Annual |
| • Member Communications | Annual |
| • Pension Board Engagement | Every 6 months |
| • Engagement via the website & LinkedIn | Continuous |
| • Constituent Authority Annual Requirements & Ambitions Questionnaire | Annual |

Risk Management

The Wales Pension Partnership ('WPP') recognises that it faces numerous risks which, if left unmanaged, can limit the WPP's ability to meet its objectives and to act in the best interest of its stakeholders and beneficiaries. However, the WPP also understands that some risks cannot be fully mitigated and that in these instances' risks need to be embraced through active and effective management.

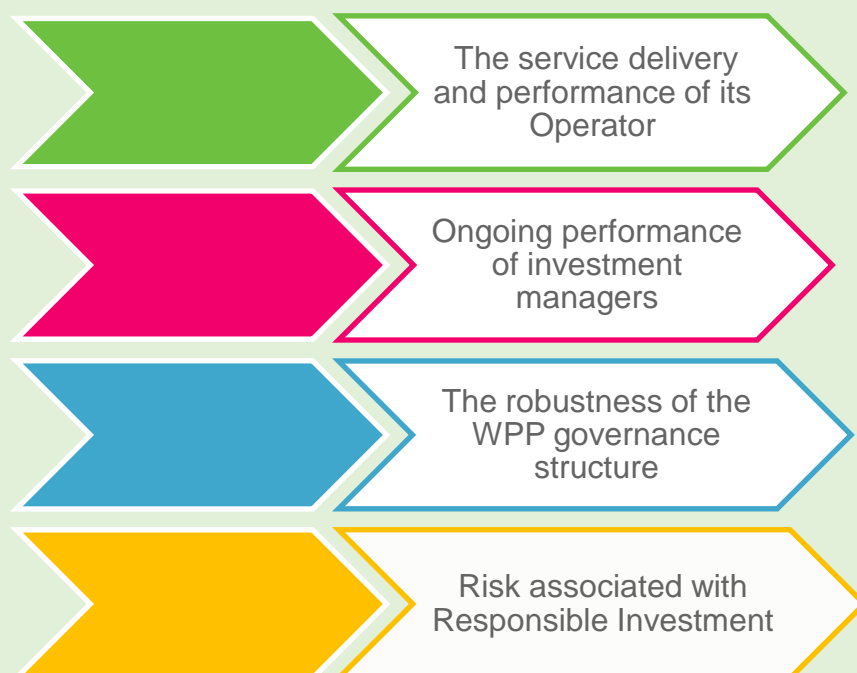

Risk management is a critical element of WPP's commitment to good governance, the WPP has developed a structured, extensive and robust risk strategy. This strategy will be embedded into the WPP's governance framework to ensure better decision-making, improved outcomes for stakeholders and greater efficiency.

The WPP's risk strategy seeks to identify and measure key risks and ensure that suitable controls and governance procedures are in place to manage these risks. The WPP believes that risks are fluid in nature and that the severity and probability of risks can change rapidly and without warning. To reflect this belief, the WPP's Risk Policy has been developed in such a way that risks can be anticipated and dealt with in a swift, effective manner to minimise potential loss or harm to the WPP and its stakeholders.

To deliver on its objectives, the WPP needs to carry out activities or seize opportunities that subject it to risk. The extent to which the WPP is able to effectively balance risk and return will depend on the success of its Risk Policy. It is critical that prior to making decisions the WPP understands the associated risks and considers the means by which these risks could be managed.

The greatest risk to the WPP's continued operation is its ability to deliver on its primary objectives. The WPP's Business Plan is an additional means through which the WPP will give special recognition to risks that pose a material threat to the delivery of its objectives and the actions required to manage these risks.

During the course of this business plan the WPP will seek to develop mechanisms, frameworks and process for managing the following key risks:

Objectives

The WPP is proud to represent the eight Constituent Authorities and recognises its duty to ensure the needs and requirements of all stakeholders are met. The WPP, through consultation with all eight Constituent Authorities, has formulated a list of primary objectives these can be summarised as follows:

- To provide pooling arrangements which allow individual funds to implement their own investment strategies (where practical)
- To achieve material cost savings for participating funds while improving or maintaining investment performance after fees.
- To put in place robust governance arrangements to oversee the Pool's activities.
- To work closely with other pools in order to explore the benefits that all stakeholders in Wales might obtain from wider pooling solutions or potential direct investments
- To deliver an investment framework that achieves the best outcomes for its key stakeholders; the Constituent Authorities. The Constituent Authorities will be able to use this framework to deliver the best outcomes for their Scheme Members & Employers

The eight Constituent Authorities recognise that their strength derives from their shared beliefs and their ability to work together to deliver on their unified objectives for the benefit of all WPP stakeholders.

Beliefs

The WPP's Beliefs reflect the collaborative nature and shared values of the Constituent Authorities, they are as follows:

- The WPP's role is to facilitate and provide an investment pooling platform through which the interests of the Constituent Authorities can be implemented
- Good governance should lead to superior outcomes for the WPP's stakeholders
- Internal collaboration between the Host and Constituent Authorities is critical to achieving the WPP's objectives. External collaboration may also be beneficial in delivering cost savings and better outcomes for stakeholders
- Responsible Investment and effective Climate Risk mitigation strategies, alongside consideration and evidential management of broader Environmental, Social and Governance issues, should result in better outcomes for the WPP's stakeholders
- Effective internal and external communication is vital to achieving the WPP's objectives
- External suppliers can be a cost-effective means of enhancing the WPP's resources, capabilities and expertise
- Fee and cost transparency will aid decision making and improve stakeholder outcomes
- Continuous learning, innovation and development will help the WPP and its Constituent Authorities to evolve
- flexible approach to the WPP pool structure and implementation methods will enable the WPP pool to adapt in future and continue to meet the needs of its stakeholders.

The WPP's beliefs are the foundation for WPP's governance framework and have been used to guide all of the WPP's activities and decision making, including its objectives and policies.

Policies

The WPP believes that good governance should lead to superior outcomes for the WPP's stakeholders. In recognition of this belief, the WPP, in consultation with the Constituent Authorities, has developed a robust governance structure and framework and a set of governing policies. In all instances the WPP's policies and procedures have been developed to either complement or supplement the existing procedures and policies of the Constituent Authorities. The WPP understands the importance of formulating and codifying its policies and procedures. This process allows the WPP and the Constituent Authorities, to:

The WPP's key policies, registers and plans are listed below and can be found on the WPP website.

The WPP's policies are reviewed on a regular basis and the WPP will continually assess whether any additional policies, registers or plans are required. The WPP workplan includes a number of additional governance documents that will be developed, these will be made available on the WPP website once completed. The policies play a vital role in the WPP's governance arrangements and have been formulated with the sole purpose of providing a codified framework which will ensure that the WPP achieves its objectives in an effective and transparent means.

Work Plan

The tables below shows key priorities and objectives that the WPP aims to complete over the next three years. The workplan has been broken down into a number of key sections which are all vital to the continued success of the WPP

- **Governance** - The WPP believes that good governance leads to better outcomes for its stakeholders, as such it will further develop its governance framework by developing additional policies, registers, plans and carry out ongoing reviews of its existing governance documents and structure.
- **Ongoing Sub-Fund development** – To date the WPP has pooled 73% of its assets and a number of other sub funds are in the process of being developed. The WPP will continue to consult with the Constituent Authorities to ensure that all suitable assets are pooled.
- **Operator Services** - The Operator, alongside the third parties that it employs on behalf of the WPP, are critical to the ongoing activities of the WPP, therefore service delivery of the Operator and third-party suppliers are crucial. The current operator contract comes to an end in December 2024.
- **Investments and Reporting** - The WPP recognises the importance of ensuring that existing investment solutions remain optimal and aligned to Constituent Authority requirements, while also delivering the investment return expectations of the Constituent Authorities. The WPP will continue to deliver on its reporting requirements and will develop further reporting, as and when required.
- **Communication and Training** - The WPP wants to ensure that internal stakeholders and external parties are aware of the WPP's progress and publishes numerous report and updates to ensure that it proactively communicates its progress to stakeholders. These can all be found on the WPP website.
- **Resources, Budget and Fees** - The WPP recognises that insufficient resources poses a significant risk to its ability to deliver an investment framework that achieves the best outcomes for its key stakeholders, the WPP carries out a number of reviews to guarantee that it has suitable resources to deliver on this commitment.

Training Plan

It is best practice for WPP personnel to have appropriate knowledge and understanding of:

- the regulations and markets relating to pensions;
- the pooling of Local Authority Pension Schemes; and
- relevant investment opportunities.

The WPP's training plan is designed to supplement existing Constituent Authority training plans. Local level training needs will continue to be addressed by Constituent Authorities while the WPP training plan will offer training that is relevant to the WPP's pooling activities.

WPP personnel should obtain a degree of knowledge and understanding that ensures they are able to carry out their duties associated with the WPP. WPP personnel should also be aware of the WPP's framework, beliefs, policies, governance matrix, the decision-making process and decision logging process.

To aid WPP personnel, the Host Authority will arrange quarterly training sessions which will cover major areas such as investments, administration, regulation requirements, government guidance and market developments. The WPP's training events will primarily focus on meeting the training needs of members of the OWG and JGC, however Constituent Authorities are encouraged to invite Pension Committee Members, as well as Pension Board Representatives if they believe that the training would be beneficial to these individuals.

We have set out below a list of training topics which the Host Authority will arrange training for during the 2022/2023 financial year. WPP's training topics are based on current WPP topical priorities and from an analysis of the WPP training requirements questionnaire/ assessment responses, completed by members of the Joint Governance Committee ('JGC') and Officers Working Group ('OWG'). Potentially there could be a number of member changes on the individual Pension Committees following the council elections in May 2022 and this has also been a factor in setting this year's training topics.

**Host Authority and External Advisor costs are to be funded equally by all eight of the WPP's Constituent Authorities and these will be recharged on an annual basis.*

***Operator / Allocator Services costs are based on each Constituent Authority's percentage share of WPP assets and are deducted directly from the Net Asset Value (NAV) of the Constituent Authority's assets.*

Investments & Performance

The WPP's Constituent Authorities have total assets of circa £21.6bn (as at 31 March 2021). The Constituent Authorities' passive investments are effectively within the Pool but are held by the respective WPP authorities in the form of insurance policies.

The Officers Working Group receives quarterly, six monthly and annual performance reports, the group reviews and challenges the performance of Investment Managers on behalf of the WPP. The WPP hosts annual manager engagement days, which are used to challenge managers and to facilitate engagement with Constituent Authority Pension Committee and Board Members and the WPP's Investment Managers. The Constituent Authorities also carry out their own analysis of WPP's investment performance at local level, this will include manager attendance at Pension Committees. Below we outline the WPP's existing Sub-Funds.

The Committee received the Dyfed Pension Fund Budget Monitoring report which provided an update on the latest budgetary position in respect of the 2021/22 financial year. It was noted that the current position, as at 31 December 2021, forecasted an under-spend of £5.6m in cash terms.

With regard to expenditure, the net effect of Benefits Payable and Transfers Out was an under spend of £1.8m. That was mainly due to an increase of 3% built in at budget setting for pensioners, the projected increase for the year was 1%. Management expenses were projected to be overspent by £739k resulting in expenditure being lower than budgeted by £1.1m.

With regard to income, the net effect of contributions and investment income was an increase of £4.5m, mainly due to higher than budgeted investment income forecast.

Overall total expenditure was estimated at £103.3m and total income estimated at £108.9m resulting in a positive cash flow position of £5.6m.

UNANIMOUSLY RESOLVED that the Dyfed Pension Fund Budget Monitoring Report for the period 1st April 2021 to 31st December 2021 be received.

6. DYFED PENSION FUND BUDGET 2022-2023

The Committee considered the Dyfed Pension Fund Budget for 2022-23. It was noted that the cash related expenditure for 2022-23 had been set at £107.8m and the cash related income at £107.8m, resulting in a net budget of £0 which provided the Fund with flexibility to utilise investment income based on cash flow requirements.

With regard to expenditure levels, the Committee noted that benefits payable had been estimated to be £93.9m which included provision for a 3.1% pensions increase, based on the September 2021 CPI together with a 1.9% net effect for new pensioner members and deferred members.

Management expenses had been estimated at £10.8m, of which £8.5m had been budgeted for investment manager fees.

It was noted that Investment income was estimated at £13.4m to maintain a cash neutral budget so that the fund was not holding onto surplus cash that could be invested.

The Dyfed Pension Fund Breaches Policy was approved by the Dyfed Pension Fund Panel in March 2016. Under the policy, breaches of the law were required to be reported to the Pensions Regulator where there was a reasonable cause to believe that:

- a legal duty which is relevant to the administration of the scheme has not been, or is not being, complied with;
- the failure to comply was likely to be of material significance to the Regulator in the exercise of any of its functions.

The Committee noted that since the last meeting there had been a few instances where employee/employer contributions had not been received on time. No report had been sent to the Pensions Regulator as there were no implications of those breaches.

UNANIMOUSLY RESOLVED that the Breaches Report in relation to the Dyfed Pension Fund be noted.
