<b>Project Title</b>	Ammanford SAC Diving RIB
<b>Applicant</b>	Ammanford Sub Aqua Club
<b>Ward</b>	<b>Ammanford</b>
<b>Project Description/ Community Benefit</b>	<p>Ammanford Sub Aqua Club is a small, friendly, very active scuba diving club located in Ammanford with members from the surrounding area</p> <p>A key requirement for the club's diving activities is a Rigid-Hulled Inflatable Boat (RIB) to facilitate off-shore trips typically around the Pembrokeshire coastline, but occasionally further afield.</p> <p>The ambition is to procure an additional club RIB to facilitate safe dive trips for the club that will also enable the club to grow significantly beyond current membership limits This funding is to purchase a RIB that will accommodate up to 8 divers plus dive equipment and will be suitable for accessing dive sites up to 25 miles off-shore.</p> <p>The ambition is to grow the club and provide the opportunity for more members of the local community to participate in this very worthwhile and rewarding activity, potentially doubling the size of the club over the next two years.</p> <p>The club is active, vibrant and welcoming and they have integrated with other Sub Aqua clubs, the most recent being Llantrisant and have run some great joint events raising money for the club while advertising some of the great visitor attractions in the area such as Carreg Cennen Castle, Glynhir Mansion, Glanamman Golf Club and Aberglasney Gardens.</p>
<b>Total Project Cost</b>	<b>£24,766.68 - Gross</b>
<b>Eligible Capital</b>	<p align="center"><b>£24,766.68</b></p> <p align="center">£8,516.67 – Humber Destroyer RIB £490.83 – Double skin hypalon tube £741.67 – Fuel tank £575.00 – Cylinder storage rack £662.50 – Steering system £570.84 – Fuel system £412.50 – Navigation frame</p>

<p><b>Eligible Revenue</b></p> <p><b>Ineligible Costs</b></p> <p><b>Amount and % of grant requested</b></p> <p><b>Match funding</b></p>	<p>£380.00 – Electrics £12,416.67 – Outboard motor</p> <p>Nil Nil</p> <p><b>£15,000.00 @ 60.56%</b></p> <p><b>£9,766.68</b> £5,000.00 – Awards for All £3,000.00 – Welsh Church Fund £1,766.68 – Own funds secured</p>
<p><b>Evidence of Need / Community Engagement</b></p>	<p>Ammanford Sub Aqua Club currently has a capped membership of 28. The cap is mainly driven by the desire to avoid over subscription of club facilities, primarily the existing single club RIB which means they can only go diving with a maximum of 8 members at any one time.</p> <p>Oversubscription of the club RIB show that on only 2 out of 18 ‘dive days’ were they able to accommodate all who wished to dive. The Committee minutes for July and August 2014 also illustrate how this is constraining the capacity for growth.</p>
<p><b>Contributing to the themes of the Fund</b></p>	<p><b>Recreation</b> - There is no doubt that Scuba Diving is a growing sport, and Ammanford Sub Aqua Club consistently sees high numbers for their annual try-dive events. Members of the public are trying out Scuba Diving on their holidays, sparking an interest to continue the experience back home. Scuba diving is open to people of varying capabilities. There are virtually no age limits and have had try-dives for children as young as 8 and one of the try-divers has recently decided to join the club at age 62, no gender limits, no major fitness limits, no size limits and certainly no ethnicity limits. Club members benefit from meeting new people, having fantastic experiences, a weekly social event, having an interest that can surpass weekend diving and learning new skills that can be enhanced &amp; developed year-on-year.</p>
<p><b>Ownership/ Lease</b></p>	<p>N/A</p>
<p><b>Cross Cutting Themes</b></p> <p><b>Welsh Language</b></p> <p><b>ICT</b></p> <p><b>Equal Opportunities</b></p> <p><b>Environmental Sustainability</b></p>	<p>The following policies have been provided:</p> <ul style="list-style-type: none"> <li>• Safeguarding Policy for children and vulnerable adults in Snorkelling and Scuba Diving.</li> <li>• Welsh Language Policy</li> <li>• Diver’s Code of Conduct Policy</li> </ul>
<p><b>Roles and responsibilities within organisation</b></p>	<ul style="list-style-type: none"> <li>• Chairman – Ensures club rules are followed and chairs monthly meetings and AGM</li> <li>• Diving Officer – Responsible for all diving operations and diver safety</li> <li>• Training Officer – Responsible for managing and delivering</li> </ul>

	<p>(along with other club instructors) all club training</p> <ul style="list-style-type: none"> <li>• Secretary – Correspondence, meeting minutes, venue management</li> <li>• Membership Secretary – Administers club memberships, annual fees and BSAC memberships</li> <li>• Treasurer – All finances into and out of the club, financial reporting and forecasts</li> <li>• Equipment Officer – Management of club assets</li> <li>• Publicity Officer (and Vice-Chair) – Club promotion, web site maintenance and assistant to Chairman</li> </ul>
<b>Mapping of service/facility within the area</b>	<p>As a BSAC club, we are able to offer our own training opportunities (the club has its own highly qualified instructors) and unlike other Diving Organisations (e.g. PADI) all training is free apart from training materials. Scuba also opens a world of other related interests, for example underwater photography, underwater archaeology (the club has received training from the Nautical Archaeology Society), marine biology and more advanced technical diving.</p>
<b>Exit strategy</b>	<p>The club's ambition is to allow more members to join so we can introduce the sport to an increasingly interested community. A new RIB would allow us to achieve that ambition, and could potentially allow the membership to double.</p>
<p><b>Outputs to be achieved</b></p> <p><b>Monitoring and Evaluation of outputs</b></p>	<ul style="list-style-type: none"> <li>• <b>New volunteers – 25</b></li> <li>• <b>New community asset – 1</b></li> </ul> <p>Club membership records will demonstrate increase in club numbers.</p> <p>Dive logs will be retained for all diving activities and these will demonstrate the usage of the new RIB and how it has facilitated an increase in 'diver days'</p> <p>Club minutes will record any other activities, including any increase in affiliations with other BSAC clubs and use of the new RIB by other community groups.</p>
<b>Business Plan/Officer Comments</b>	<p>Without the funding from the Mynydd y Betws community benefit fund, external funding would be difficult to source if at all, other than the Awards for all funding to a maximum of £5k and the Welsh Church Fund</p> <p>Very strong application and supporting documentation.</p> <p>No previous funding has been received.</p> <p><b>Project was approved by the Mynydd y Betws panel in June 2015 but was unable to award due to insufficient funds being available. Panel agreed if slippage became available to award this project, final approval has been received from ESB to present at EBM.</b></p>

<b>Project Title</b>	Community Inspirational Creative Project
<b>Applicant</b>	Splat Development Cymru
<b>Ward</b>	<b>Glanamman</b>
<b>Project Description/ Community Benefit</b>	<p>Splat Cymru is the first social enterprise to operate within the educational and community sector originated from a small reading business called Splat Education.</p> <p>Its aim was to provide and support pupils through art and technology aimed at the education sector, however, it became apparent that there was a need for this in the community.</p> <p>Inspiration came from being a part of the Raise project which looked at raising self esteem of children within deprived areas. This was an extremely positive and beneficial project which enlightened and enriched children's outlook on what they could achieve.</p> <p>The ongoing aim is to provide communities with the skills and confidence needed to lead engaging projects which will raise their self confidence, enlighten their aspirations and take ownership, and with all of this combined creating solid, sustainable foundations for the next generation.</p> <p>This project aim is to continue from the growing pilot schemes and provide an art camp to be run during holiday times, supporting Pupils Learning through Art and Technology, getting the children out of the house first and foremost, engaging children in the great outdoors and giving them a sense of ownership of objects in public spaces and play areas but also getting them talking about what they are doing by being involved in creating things and taking ownership of them.</p> <p>Splat Cymru will be focusing its energy towards the Amman Valley area using Art and Technology based strands, offering a wide range of accessible activities to schools and communities, with the Glanamman, Garnant as the main ward; however its reach will extend its project towards Ammanford, Betws Pontamman, Penygroes, Saron, Tycroes and Llandybie.</p>

<p><b>Evidence of Need / Community Engagement</b></p>	<p>The need for Splat Cymru within the educational sector is expanding at a rapid rate. Art and Technology are two of the outlining subjects which are at times the weak points of Schools when dealing with inspections as these two subjects are able to bring together many skills and opportunities for both academic and non academic children.</p> <p>Schools are seeking to provide a rich and fulfilled curriculum and this is where Splat Cymru can provide the support and guidance needed in producing both creative and exciting projects. Splat education engaged 134 pupils over 4 schools with pilot projects, aimed to build creativity, exploration and education. Pupil's feedback was very positive and Head teacher feedback was very encouraging.</p>
