SOCIAL MEDIA

Staying...in touch

Overview

Part 1: Staying in touch

- What is Social Media?
- Why should you use it?
- What types of Social Media are out there?
- How to use it?

Part 2: Staying out of trouble

- Legal Issues
- Code of Conduct
- Reputation

What is social media?

- Social media broadly means online multimedia/apps which allow you to create and publish content and engage in two-way communication.
- Social media can be accessed via apps on your smartphone, computer, tablet, smart TV or smart watch.
- Social media accounts tend to be free can be set up quickly and easily

What is social media?

- It's just a new(ish) form of communication
- Humans have communicated and shared information through graphic, oral or written media for millennia...
- ...why should we be afraid of or dismissive of this relatively new media?
- It's free, available and open to all – information and mass-communication from the palm of your hand!

It's popular!

Facebook:

- Around 30 million users in UK.
- Facebook is the default social networking site for 96% of UK adults who are online (Ofcom)

Twitter:

- Twitter says 15m UK users (end of 2013)
- ONS suggests around 9.5m

Stats from <http://www.rosemcgrory.co.uk/>

Newspapers:

- 8m national newspaper circulation

It's growing!

Interviews were conducted in English and Spanish and on landline and cell phones. The margin of error for results based on internet users is +/- 1.6 percentage points.

It's here to stay...or is it?

Kelda, Cathays Cemetery and the success of the ball in the wall

Kelda Ground Breaking

Earlier this year, the City of Cardiff and the Vale of Glamorgan signed a 15-year £13.4m joint organic waste deal with Kelda Organic Energy Limited to build a new facility to convert food waste into a soil fertiliser and use the gases produced to generate renewable energy.

This agreement reinforces the Council's commitment to meet the statutory Welsh Government targets around recycling as we work towards their 'Zero Waste' goal for 2050. The new plant will use the latest technology that will not only treat and recycle the organic waste but will also produce sustainable sources of energy and fertiliser for farming.

Why have Councillors?

Welsh Government is planning to complete a 40 year programme of reducing the number of councillors by 90%. Does it matter?

As in many walks of life, the less obvious a councillor the more effective she or he is likely to be. I have worked with councillors for many decades. I disagree with many. I like most. I respect almost all.

Let me share some experiences of the past week. I met two councillors who have been leading the governing body of brand new school. They were clearly the bridge between the community and local authority as the school was designed and built. They played their part in creating and supporting the professional leadership of a school which is now achieving well beyond expectations.

I listened to another councillor who shared the experience of working to untie the knots of Welsh Government's disjointed application of three competing anti-poverty programmes to one small community. He could have walked away; he was in no way a responsible player, indeed he was often made unwelcome, but instead he was committed to the hard graft of making the unworkable work better.

For myself, I spent a productive day talking to parents, transport managers and bus companies to ensure that a school bus could be re-routed to avoid a new construction site. Within 24 hours we turned a hostile stand-off into a new route to school.

Why use Twitter?

- Probably the easiest and most accessible social media to use
- Instantaneously communicate with your followers, and potentially within seconds millions of others!
- Share news stories or events from others
- Find out what other people are saying (maybe about you or things you care about – sophisticated searches and alerts)

Why use Twitter?

- Find out about intelligence or breaking news as it happens (careful here though...). Then share it and pass it on.
- Can be very, very funny!
- Can help make you appear human and normal!

Why use Twitter?

What to watch out for:

- 'Trolls' and abuse
- Getting drawn into protracted public arguments
- Tweeting when a text might be better
- Tweeting when you're 'tired and emotional'

Why use Twitter?

What to watch out for:

- Don't believe everything you read on twitter...
 - Some of it is gossip and rumour
 - Some of it is deliberately untrue
 - There are some spoof accounts – people are not always who they purport to be
- 'Clickbait'

Why use Twitter?

What to watch out for:

- Retweeting some things... 'retweets do not necessarily mean endorsements' doesn't stand up in court
- The 'twitterati bubble' – twitter users are not necessarily a representative sample of society
- A tweet is permanent, even if you think you've deleted it...so think before you tweet something contentious

So, to recap:

1. Social media is simple and free to use
2. Mass and quick communication
3. To make the most of it, don't just tell people what you're doing, listen to feedback too
4. People can find out about the real you
5. It can be fun!
6. It's all going on already – you might be missing out

Tweet within twenty seconds...

- Go to twitter.com
- Sign-up (for free, no strings attached).
- Choose your twitter username (@somebody) and a password.
- Create your 'profile', with as much or as little detail as you'd like and maybe a picture or two.
- Tweet and retweet
- And remember to follow too, that's how you find out what people are doing or saying and how you get followers back...
