RISK REGISTER Q4 2020 REVIEW

BRIEF SUMMARY OF PURPOSE OF REPORT

The WPP has formulated a Risk Register which is the means by which risks are documented, managed and monitored. The purpose of the WPP Risk Register is to:

- Outline the WPP's key risks and factors that may limit its ability to meet its objectives
- Quantify the severity and probability of the risk facing the WPP
- Summarise the WPP's risk management strategies
- Monitor the ongoing significance of these risks and the requirement for further risk mitigation strategies

The Initial Risk Register was approved by the JGC on 17 July 2020. The Officers Working Group is responsible for maintaining the WPP Risk Register and reporting back any changes or developments to the JGC on a quarterly basis.

During the last quarter, a review has taken place, primarily being the risks within the Investments and Performance section of the Risk Register, risks I1 to I9. No changes have been made to the risk scoring; however a number of changes have been made to the Action Required and Progress Reports / Comments sections.

The updated risk register is attached together with a summary sheet, summarising the review outcomes of each risk.

The OWG has established a dedicated WPP Risk Sub-Group to take ownership of the WPP Risk Register and the quarterly review of this document. The next review will take place in Q1 2021 and will focus on risks G.1 to G.8 in the Governance & Regulation Risks section.
