How the Department's Services support the Well-being Objectives	2
Summary Departmental & Divisional Plans	3
APPENDIX 1 - Well-being of Future Generations Act 2015	15
Environment Department Budget	16

This is a Departmental Business Plan to show at a high level what the department will do to support the Corporate Strategy 2018-23 and the Well-being Objectives we have set. Within this framework we have examined our priorities for 2021/22 and the impact of COVID-19.

Purpose of the plan

This departmental business plan has been produced to give staff, customers, and elected members and partners a guide to the services provided by the department. It translates strategic objectives, to service objectives, to individual staff targets. It provides an open and transparent way of showing what is to be achieved and how we plan to do this.

It shows how resources will be used to achieve objectives and the service implications of budgetary increases or reductions. It shows what we get for what we spend and if we are making the most of what we have. The plan also aims to demonstrate and provide assurance on service standards so that the service can be held to account.

This plan will be supported by more detailed Divisional Plans and Team Plans.

Director's Overview

I would like to thank all staff and services for their excellent contribution, often under challenging circumstances. The impact of Covid-19 on the Environment Department in 2020 and ongoing impact has raised challenges in continuing to provide essential key services. The dedication, commitment, flexibility and personal resilience shown and applied by the department's staff deserve to be recognised and their aptitude and contribution cannot be overstated.

The department manages a diverse range of services which include highways and transport, waste collection and recycling, property maintenance and design, and planning. All divisions in the department have been working hard throughout the Covid-19 pandemic to maintain frontline services and support other departments, adapting to the new ways of working and developing safe working practices to enable the continuity of service delivery. Operationally, new services have included the establishment of a central store for personal protective equipment for the authority, improved customer communications and development of an online Household Waste Recycling Centre booking system.

Our high priorities for this year are to address the recent years flooding in Carmarthenshire, and support and contribute to the Net Zero Carbon agenda. Our Active Travel plans will support the reduction in carbon, whilst promoting a healthy lifestyle. We will continue to review and implement our Waste Strategy to improve recycling rates. We will deliver sustainable, energy efficient schools. And, we will continue to deliver our obligations under the Environment Act to enhance biodiversity and our green spaces. Our plans have been developed in line with the Future Generation sustainable development principles of planning for the long-term, prevention, integration, collaboration and involvement.

Environment Departmental Key Priorities

Ref	Key Priorities	By When?	By Whom?	WBO Ref
PA1	Consider how we are set up as a department. Are there better synergies of services within and across other departments? Allow collaborative working across <u>structures</u> and reduce duplication. Consider working patterns for all groups of staff e.g. operatives, supervisors and managers; Consider the potential for multi-functional workforce not necessarily confined to specific work types.	Mar 2022	Ruth Mullen	WBO 13 B6
PA2	Review the interaction and service provision with respect to Corporate Procurement Unit and the Departmental Procurement Unit. More emphasis needed on performance and contract management.	Mar 2022	Ruth Mullen	WBO 13 B6
PA3	Review and evaluation of suitable technology and software, to aid efficient operational delivery and provide links with management systems that will avoid duplication and allow easy extraction of management and performance data, access to real time data for customers and improve mobile working opportunities.	Mar 2022	Ruth Mullen	WBO 13 B6
PA4	Review current communication channels and identify improvements to enable timely and effective two-way communication with all colleagues across the Directorate. To include specific solutions to address difficulties with communicating with non-office based and part-time colleagues.	Mar 2022	Ruth Mullen	WBO 13 B6
PA5	Identify property assets the department requires. Work with Regeneration Division to re-evaluate the concept of a single depot to provide modern and functional facilities for our operational staff, including vehicles and plant parking/storage. Given the reduced need for office content due to potential for greater homeworking a new depot may be more viable. Also, consider options for centralising WES operations at a single depot, co-located with CWM Environmental at Nantycaws. Aspects of Highways/TMU operational delivery could also be considered. Carbon Zero agenda to be considered also, along with plant and machinery.	Mar 2022	Ruth Mullen	WBO 13 B6
PA6	Review managerial, supervisory and operational resource levels and skills to allow sufficient resilience. Ensure skills and competencies match the service delivery and response expectations and include support for change management and staff wellbeing. Response to emergency project work and sufficient resource to ensure longer term delivery.	Mar 2022	Ruth Mullen	WBO 13 B6
PA7	One team approach – disparity of work allocation during the Pandemic to resource projects. Inequality of teams and individuals supporting delivery of services needs to be addressed, such as workloads/furlough/volunteering /capacity/willingness to work/flexibility.	Mar 2022	Ruth Mullen	WBO 13 B6

Departmental Actions

Ref	Key Actions and Measures	By When?	By Who?	WBO Ref
1	To ensure the department takes into account and fully supports the embedding of progressive procurement arrangements in line with the whole Council approach.	31/3/2022	Ruth Mullen	WBO13-B6

APPENDIX 1 - Well-being of Future Generations Act 2015

This is a new Act introduced by the Welsh Government, which will change aspects of how we work. The general purpose of the Act is to ensure that the governance arrangements of public bodies for improving the well-being of Wales take the needs of future generations into account. The Act is designed to improve the economic, social and environmental well-being of Wales in accordance with sustainable development principles.

A. The Sustainable Development Principle of the Act

The new law states that we must carry out sustainable development, improving the economic, social, environmental and cultural well-being of Wales. **The sustainable development principle is**

‘... the public body must act in a manner which seeks to ensure that the needs of the present are met without compromising the ability of future generations to meet their own needs.’

B. The Five Ways of Working required by the Act

To show that we have applied the sustainable development principle we must demonstrate the following 5 ways of working:-

1. Looking to the long term so that we do not compromise the ability of future generations to meet their own needs;
2. Taking an integrated approach so that public bodies look at all the well-being goals in deciding on their priorities;
3. Involving a diversity of the population in the decisions that affect them;
4. Working with others in a collaborative way to find shared sustainable solutions;
5. Understanding the root causes of issues to prevent them from occurring.

C. The Seven Well-being Goals of the Act

There are **7 well-being goals** in the Act. Together they provide a shared vision for public bodies to work towards. We must work towards achieving all of them.
