The County Council approved a NZC Plan on 12th February 2020.

Action NZC-28 of this Plan requires performance reports on progress towards becoming a net zero carbon local authority by 2030 to be published annually.

The first <u>Annual Progress Report</u> was received by EPP Scrutiny Committee at its meeting on 5th March 2021, and was subsequently approved by Executive Board on 22nd March 2021.

Extract from Report to EPP Scrutiny Committee on 5th March 2021:

...As referenced in our NZC Plan, Welsh Government have an ambition for a <u>carbon neutral public sector by 2030</u> and were to establish Wales-wide methodologies for carbon emissions reporting by the end of 2019/20. Unfortunately, this Guidance is not yet available, and the delay has impacted on the following Actions in the NZC Plan which were dependent on it being published in April 2020:

| Ref | Action |
|--------|--|
| NZC-06 | Develop appropriate carbon reduction target for the Council's non-domestic buildings as part of annual review of action plan |
| NZC-07 | Develop appropriate carbon reduction target for the Council's street lighting as part of annual review of action plan |
| NZC-09 | Develop appropriate carbon reduction target for the Council's fleet mileage as part of annual review of action plan |
| NZC-12 | Develop appropriate carbon reduction target for the Council's business mileage as part of annual review of action plan |
| NZC-16 | Develop appropriate target for renewable energy generation as part of annual review of action plan |
| NZC-27 | Review action plan following publication of Welsh Government guidance regarding new national carbon reporting framework |
