- ACC:**
- Measure to provide enhancements for reptiles and invertebrates.
 - Management - First year and subsequent years out in March then again in July/August following flowering and seeding of the main species. Collect the hay cut and remove. Place in 200 L metal drum in designated area at the southern end of the site to provide potential habitat for reptiles.
 - In step to provide vegetation in habitat, prevent vegetation encroaching into parking and driving areas, when visibility signs and enhance the appearance of the meadow. Cut as frequently as required.
 - Sparrow larch to be located on the building as indicated on Drawing K23-SR-CCC-05-102

CARMARTHENSIRE COUNTY COUNCIL RETAINS COPYRIGHT OF THIS DRAWING.
This drawing may not be made, reproduced or altered in any way, without the written permission of Carmarthenshire County Council.

DO NOT SCALE THIS DRAWING.
It is the user's responsibility to verify all dimensions on site prior to proceeding with the works. All figures merely approximate and are not intended as a substitute for a survey. Such dimensions, unless otherwise stated, shall be taken as approximate, and therefore due allowance should be made for plaster, finishes, etc.

Any discrepancies between drawings and the modified site work to be verified and approved with Carmarthenshire County Council before implementation.

READ ALL DRAWINGS AS ONE.
Make checks over the drawings, or sections, of all drawings are used in all areas. If in doubt, please contact the relevant Carmarthenshire County Council person responsible for the project.

Drawings are to be used in conjunction with the latest editions, or revisions, of all other relevant details and schedules.

Where any amendments or variations are made to this drawing and / or the contract of works, it is the contractor's responsibility to advise the relevant Carmarthenshire County Council before proceeding. The advice will be sent to Carmarthenshire County Council where the necessary conditions must be observed at each application.

NOT FOR SITE WORKS:
This drawing is a general arrangement plan only, and is not intended for site purposes.

- 1. INTRODUCTION**
- This Landscape Mitigation Plan (LMP) is a key component of the overall planning application for the Brynhyd Solar Farm. It details the measures to be taken to avoid, minimize, and compensate for any adverse effects on the landscape and environment during the construction and operation of the solar farm.
- 2. OBJECTIVES**
- To avoid and minimize any adverse effects on the landscape and environment.
 - To compensate for any unavoidable adverse effects through a combination of measures.
 - To ensure that the overall appearance of the site is enhanced and integrated with the surrounding landscape.
 - To provide a high-quality landscape for the life of the solar farm.
- 3. MITIGATION MEASURES**
- Site Preparation:**
 - Establish a site boundary and public rights of way.
 - Install overhead power lines and high pressure gas pipe lines.
 - Plant existing woodland, hedgerows, and trees to provide a natural screen and enhance the landscape.
 - Install a maintenance track and site compound.
 - Install a substation area and housing structure.
 - Install a conversion unit and proposed security fence.
 - Install access gates and CCTV.
 - Plant native trees to provide a natural screen and enhance the landscape.
 - Construction:**
 - Use a range of planting materials to create a diverse and resilient landscape.
 - Use a mix of tree species to provide a natural screen and enhance the landscape.
 - Use a range of planting materials to create a diverse and resilient landscape.
 - Use a mix of tree species to provide a natural screen and enhance the landscape.
 - Operation:**
 - Establish a long-term maintenance regime to ensure the landscape remains high quality.
 - Monitor the landscape and environment to ensure that the mitigation measures are effective.
 - Report on the progress of the landscape mitigation measures to the relevant authorities.

KEY

- Site Boundary
- Public Rights of Way
- Overhead Power Lines
- High Pressure Gas Pipe Lines and associated
- Existing Woodland, Hedgerows and Trees (with Root Protection Areas)
- Maintenance Track
- Site Compound
- Substation Area
- Housing Structure
- Conversion Unit
- Proposed Security Fence (Steel Fencing)
- Access gate
- CCTV
- Native
- Proposed Native Tree Planting
- Proposed Hedgerow (Native Hedgerow)
- Areas of grass made good following construction - sown with Solar Farm Long Term Grassing Mixture
- Fields subject to Driveland Restoration and Collaborative Plan (separately to Total)
- Field reserved for agricultural use

Revision:

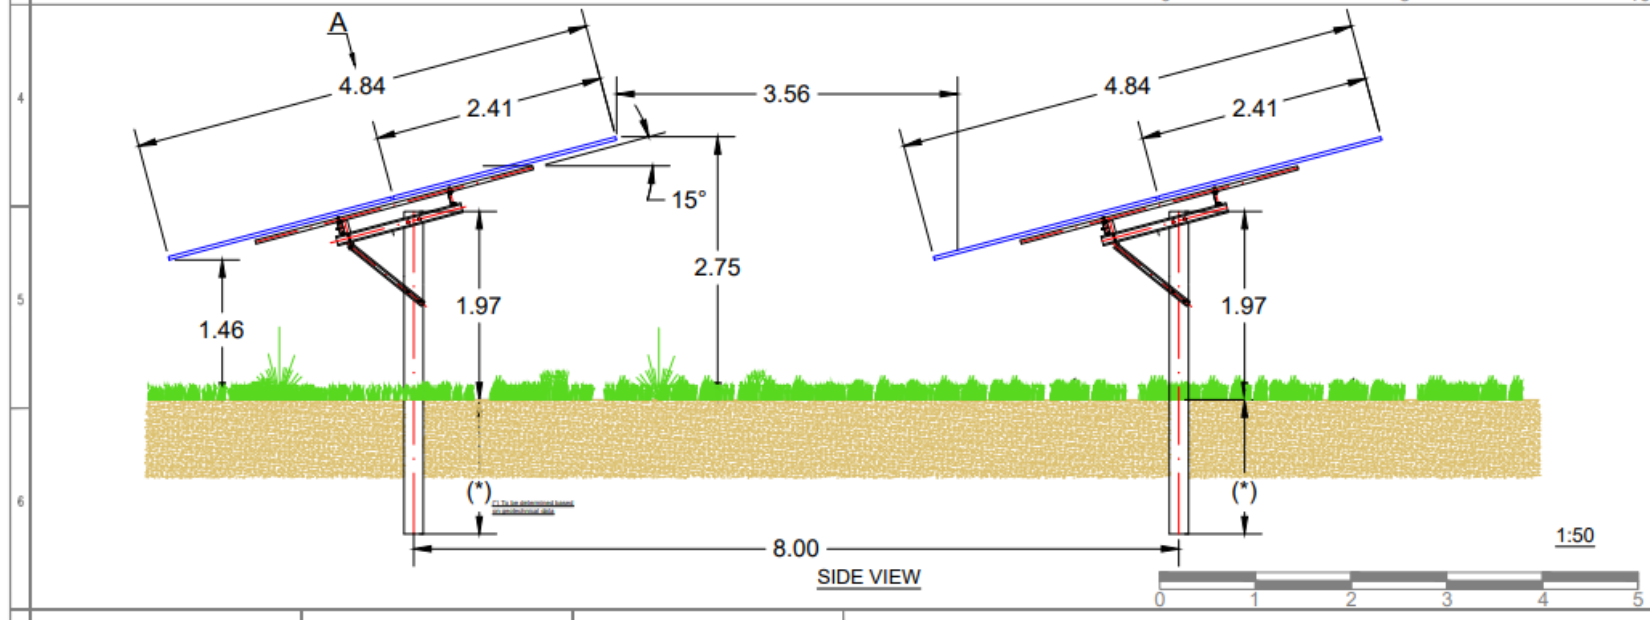

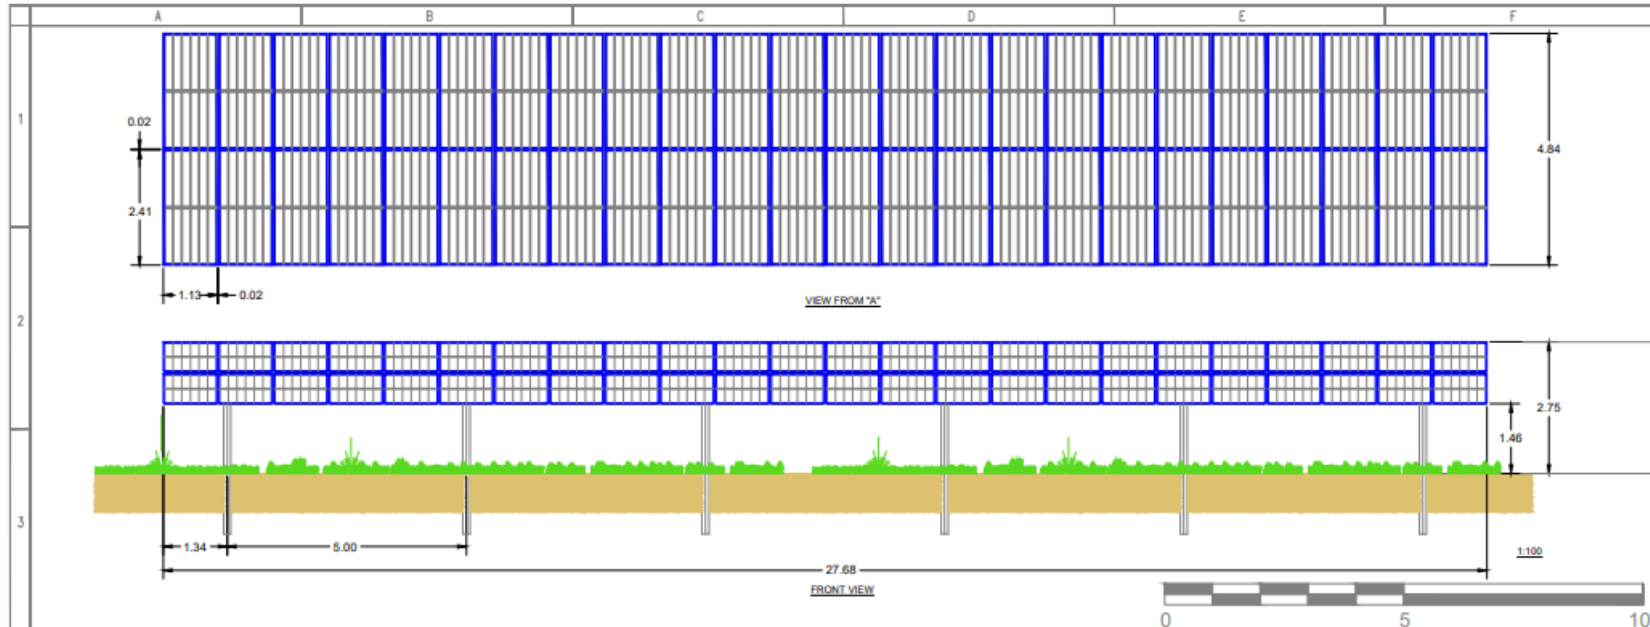

- 1. 11/06/2021: Initial design
- 2. 11/06/2021: Revised design
- 3. 11/06/2021: Final design
- 4. 11/06/2021: Final design
