# EXECUTIVE SUMMARY

## DOMICILIARY CARE STRATEGY UPDATE

### 1. BRIEF SUMMARY OF PURPOSE OF REPORT:

At its meeting on 24<sup>th</sup> January 2023, the Committee considered the current position in relation to domiciliary care in the county and the ongoing challenges that the Council (similarly to all Local Authorities across both Wales and the UK) is facing with having sufficient capacity to meet demand. This is linked to the significant workforce challenges that the sector as a whole is facing, and the consequent difficulties in recruiting and retaining sufficient numbers of care workers. The Committee asked for a regular update on performance to provide assurance going forward.

It was consequently agreed that the key metrics would be reported into the Committee on a regular basis.

## 2. Legal

Carmarthenshire County Council has a legal duty under the Social Services and Wellbeing (Wales) Act to assess a person's need and provide appropriate care and support to meet an eligible need.

## 5. Risk Management Issues

Due to the significant workforce challenges in the domiciliary care sector, Carmarthenshire currently has more people assessed as needing care than care hours available. Therefore, Carmarthenshire is currently risk assessing all those waiting for care and prioritising the care that becomes available based on those with greatest need. If no care is available, all options are being explored to see whether needs can be safely met at home through other means, such as family support funded via a direct payment until a package of care becomes available, a step-down bed in a residential care setting and Delta Connect as a way to provide reassurance that help is at hand for families. Through this approach, nobody is discharged from hospital or left unsupported in the community unless arrangements are put in place to allow this to safely happen.
