## **General information in support of the request**

Agriculture makes up an important part of the economy of the County and members of the public working in the industry, or whose families are directly connected with the industry, make up a significant part of the population of many parts of Carmarthenshire.

Many of the functions of the Council relate to or directly affect the farming industry. Decisions taken by elected members relating to farming matters can have a significant impact not just upon individual farms, but also upon the wider agricultural sector and the communities that they are a key part of.

If Councillors who have a personal and prejudicial interest in farming related decisions are unable to speak, not only would farming communities in the County be denied democratic representation when such decisions are made but also those Councillors who do not have such an interest would be denied the benefit of their expert knowledge.

Public confidence in the conduct of the Council's business would not be damaged by allowing these Councillors to speak in any debate or make written representations on farming related matters if any dispensation were to be caveated in the way suggested below.

The 14 applicants represent just over a third of their Plaid Cymru group on the Council and their inability to participate in any farming or agricultural matters would distort the political balance of the Council to such an extent that it could affect the outcome of **any vote on the particular motion**.

Some of these Councillors represent constituencies that are heavily affected by agricultural decisions and policies in terms of economy, employment and language etc. As such it is felt that it unfairly disadvantages those constituencies where their elected Councillor is denied a vote on such issues.

All applicants (apart from Cllrs. Davies Evans, Andrew Davies, Bryan Davies and Hazel Evans) have previously been granted dispensation to speak and make written representations (but not vote) in respect of these in respect of farming and agriculture generally, most recently in June 2022, and before this in 2017, 2018 and 2019.

However the June 2022 dispensation is subject to the caveat that it does not apply to council business that relates directly to the specific farm or agricultural land or activity which gives rise to the councillor's personal interest. Advice has been received from the Monitoring Officer that this caveat means that this previous dispensation would not therefore permit the relevant members to participate in the debate on this particular motion as the motion asks Welsh Government to review Tb testing procedures and all the Councillors above either have cattle on their respective holdings or have family which farm cattle.

Therefore, we require further dispensation which allows the mentioned Councillors to speak and vote on this specific issue in which they are experts. They all live with Tb testing on a bi-monthly basis or at best every 6 months. The Technical Advice Group which has been set up by Welsh Government is currently looking at Terms of Reference and therefore now is the opportune time to influence and provide expert representation. Tb testing affects all agricultural holdings which have cattle and constituents from all Wards need to have representations from their respective knowledgeable Councillors.

I confirm that the information provided on this form is true to the best of my knowledge. I agree that this application and all the information contained within it may form part of a public report to the Standards Committee. I request a dispensation in respect of the above matter.
